

MSX pubFoundry

Experience the future of technical content

MSX pubFoundry is the ultimate solution for managing technical publications, designed with the needs of automotive customers in mind.

We understand the complexities faced and we've crafted our software to simplify your processes, enhance your productivity, and propel your business into the future.

Our comprehensive solution portfolio is leveraged by leading edge technology and global delivery capabilities. We offer a variety of Technical Information solutions, providing accurate information to your technicians, customers, and end users.

- > Content Development

- > Technical Publishing Services
- > Video Production
- > Technology

Our extensive global presence enables us to strategically establish operations that guarantee both high-quality output and cost-effectiveness. We ensure efficiency by integrating excellence centers in close proximity to our customer, with off-shored production hubs in low-cost countries. Additionally, our presence in major automotive markets allows us to tailor configurations and labor divisions according to the specific needs of OEM customers and their local contexts.

Redefining technical content management

At MSX, we specialize in streamlining content authoring, management, and global delivery. pubFoundry's integrated features are fine-tuned to facilitate the creation, organization, and distribution of your technical content.

Its advanced analytics capabilities gauge content performance and user engagement, providing you with actionable insights to continuously refine your publications and strategies.

Content authoring

An intuitive and direct interface revolutionizes the creation process.

Content management

A robust and scalable system organizes your content for maximum efficiency and consistency.

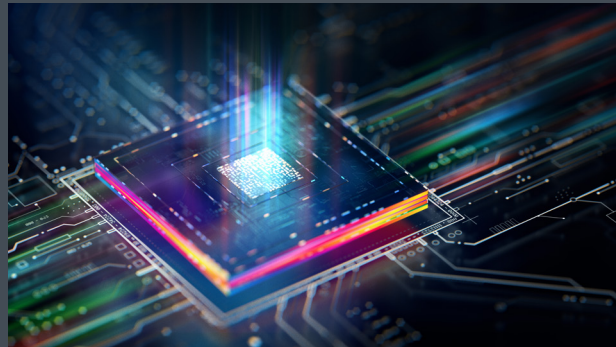

Content reach

We ensure your content reaches global audiences with unparalleled speed and reliability.

Advanced analytics
